

Responsible Copper

#SocialResponsibility

ICA members strive to keep operations safe while empowering local communities.

Grupo Mexico

Equipped Mexican hospitals and healthcare workers with ventilators and supplies, including more than 10,000 protection kits to fight COVID-19. The company also invested \$7.8 million (~€6.9 million) to build a 60-bed, 73,194ft² (6,800m²) hospital to provide coronavirus treatment to local populations.

Teck Resources

Is supporting Indigenous women in Northern Chile through investments totaling \$2 million (~€1.7 million) to set up a learning center with classes on entrepreneurship and business skills.

Anglo American

Is committed to supporting local communities in Chile through their Rural Water Program. At three sites, digital solutions have increased water availability by 20 percent, decreased water pipe ruptures by 50 percent and demonstrated energy savings of 20 percent.

BHP Billiton, Rio Tinto and Anglo American

Are using brain wave technology to detect fatigue. This next-generation technology alerts drivers, supervisors and back-office personnel about potential hazards, providing increased worker safety and leading to improved road conditions.

Freeport - McMoRan

Sent work crews to rescue residents of an Arizona city after severe flooding blanketed the town in a thick layer of mud and debris, burying a main street in 4ft (1.2m) of mud and stranding citizens in their homes. Freeport crews removed the mud and hauled away debris, paying employee volunteers who worked on their own time.

KGHM Polska Miedź Foundation

Is developing both body and mind by offering community youth programs in Poland teaching everything from survival training to math. The company provided access to sports classes for low-income households, hosted a math competition in conjunction with a local university and donated scientific equipment to local schools.
